Responsive & Mobile-First Web
Design

Professional Experience

2021-08 - Current

Freelance Web Developer

Self-employed, Toronto, ON

- Planned website development, converting mockups into usable web presence with HTML, JavaScript, CSS, and JSON coding.
- Provided front-end website development using React.js.
- Oversaw technical issues and troubleshooting requests to resolve user problems.
- Collaborated with client to establish project goals, projections, requirements, and milestones.
- Built and styled new websites and landing pages that are mobile-friendly and responsive.
- Generated web hosting presence to accommodate specified needs and increased web-traffic and user engagement by 100%.

Projects

Personal Portfolio Website: <https://www.anthonychablov.com/>

Developer & Designer

- Built responsive and interactive multi-page website using React-Router-Dom, React.js, React Hooks, HTML5, CSS3, SCSS, and React Toastify.
- Designed website and user-interface (UI) by creating a wireframe using Figma.
- Animated page transitions using Framer-Motion.
- Cut development time by 60% by creating reusable React.js components, hooks, and JavaScript code.

Password Generator Application: <https://anthonychablov.github.io/password-generator-app/>

Developer

- Built responsive web application that generates a password based upon selected settings of password length and the inclusion of uppercase, lowercase, number, or symbol characters. Made using React.js, React Hooks, HTML5, CSS3, SCSS, React Toastify and MUI.
- Cut development time by 60% by creating reusable React.js components, hooks, and JavaScript code.

IP Address Tracker <https://anthonychablov.github.io/ip-address-tracker/>

Developer

- Built responsive web application that tracks an IP address and/or domain name and displays the location on a map. Made using React, React Hooks, CSS3, HTML5, SCSS, React Leaflet. Data was fetched using the Fetch API from The Geolocation DB API and The Map Tiler API
- Reduced development time by 50% by creating reusable React.js components and JavaScript code.
